

BEFORE THE BOARD OF OIL AND GAS CONSERVATION
OF THE STATE OF MONTANA

UPON THE APPLICATION OF
FIDELITY EXPLORATION & PRODUCTION COMPANY
TO APPROVE ITS CORRAL CREEK PLAN OF
DEVELOPMENT FOR COAL BED NATURAL GAS
PRODUCTION FROM THE FOLLOWING LANDS IN
BIG HORN COUNTY, MONTANA

ORDER 48-2008

T8S-R40E

SECTION 25: S½

SECTION 36: ALL

T9S-R40E

SECTION 1: ALL

SECTION 2: ALL

APPLICANT PROPOSES TO DRILL AND DEVELOP
THE REFERENCED LANDS WITH COAL BED
NATURAL GAS WELL DENSITIES GREATER THAN
ONE WELL PER 640 ACRES. APPLICANT WILL
SUBMIT ITS CORRAL CREEK PLAN OF DEVELOPMENT
(POD) TO BOARD STAFF PRIOR TO HEARING. THE
POD WILL OUTLINE THE PROPOSED
ENVIRONMENTALLY RESPONSIBLE DEVELOPMENT
OF AN AREA WHEN NATURAL GAS WELL DENSITIES
GREATER THAN ONE WELL PER 640 ACRES ARE
BEING REQUESTED.

Docket No. 47-2008

Report of the Board

The above entitled cause came on regularly for hearing on the 27th day of March, 2008 in the conference room of the Billings Petroleum Club in the Crowne Plaza Billings in Billings, Montana, pursuant to the order of the Board of Oil and Gas Conservation of the State of Montana, hereinafter referred to as the Board. At this time and place testimony was presented, statements and exhibits were received, and the Board then took the cause under advisement; and, the Board having fully considered the testimony, statements and exhibits and all things and matters presented to it for its consideration by all parties in the Docket, and being well and fully advised in the premises, finds and concludes as follows:

Findings of Fact

1. Due, proper and sufficient notice was published and given of this matter, the hearing hereon, and of the time and place of said hearing, as well as the purpose of said hearing; all parties were afforded opportunity present evidence, oral and documentary.
2. The evidence indicates that granting the application will serve to protect correlative rights and be in the interest of conservation of oil and gas in the State of Montana.

BOARD ORDER NO. 48-2008

Order

IT IS THEREFORE ORDERED by the Board of Oil and Gas Conservation of the State of Montana that the application of Fidelity Exploration & Production Company is granted as applied for.

IT IS FURTHER ORDERED that approval of this application is contingent upon completion of an Environmental Assessment by Board staff.

Done and performed by the Board of Oil and Gas Conservation of the State of Montana at Billings, Montana, this 27th day of March, 2008.

ANYWHERE WITHIN THE SPACING UNIT BUT
NOT CLOSER THAN 660 FEET TO THE
BOUNDARIES THEREOF.

ORDER NO. 61-2008

Docket No. 61-2008

Report of the Board

The above entitled cause came on regularly for hearing on the 27th day of March, 2008 in the conference room of the Billings Petroleum Club in the Crowne Plaza Billings in Billings, Montana, pursuant to the order of the Board of Oil and Gas Conservation of the State of Montana, hereinafter referred to as the Board. At this time and place testimony was presented, statements and exhibits were received, and the Board then took the cause under advisement; and, the Board having fully considered the testimony, statements and exhibits and all things and matters presented to it for its consideration by all parties in the Docket, and being well and fully advised in the premises, finds and concludes as follows:

Findings of Fact

1. Due, proper and sufficient notice was published and given of this matter, the hearing hereon, and of the time and place of said hearing, as well as the purpose of said hearing; all parties were afforded opportunity to present evidence, oral and documentary.
2. The evidence indicates that granting the application will serve to protect correlative rights and be in the interest of conservation of oil and gas in the State of Montana.

Order

IT IS THEREFORE ORDERED by the Board of Oil and Gas Conservation of the State of Montana that the application of Headington Oil Company LLC is granted as applied for.

IT IS FURTHER ORDERED that a federal communitization agreement for spacing units which contain both federal and non-federal land shall be submitted to the authorized officer of the Bureau of Land Management prior to or upon completion of a producible well.

Docket No. 74-2008

Report of the Board

The above entitled cause came on regularly for hearing on the 27th day of March, 2008 in the conference room of the Billings Petroleum Club in the Crowne Plaza Billings in Billings, Montana, pursuant to the order of the Board of Oil and Gas Conservation of the State of Montana, hereinafter referred to as the Board. At this time and place testimony was presented, statements and exhibits were received, and the Board then took the cause under advisement; and, the Board having fully considered the testimony, statements and exhibits and all things and matters presented to it for its consideration by all parties in the Docket, and being well and fully advised in the premises, finds and concludes as follows:

Findings of Fact

1. Due, proper and sufficient notice was published and given of this matter, the hearing hereon, and of the time and place of said hearing, as well as the purpose of said hearing; all parties were afforded opportunity to present evidence, oral and documentary.
2. The evidence indicates that granting the application will serve to protect correlative rights and be in the interest of conservation of oil and gas in the State of Montana.

Order

IT IS THEREFORE ORDERED by the Board of Oil and Gas Conservation of the State of Montana that the application of Headington Oil Company LLC is granted as applied for.

SECTION 31, T24N-R57E, RICHLAND COUNTY, MONTANA,
SAID WELL TO BE LOCATED ANYWHERE WITHIN
THE SPACING UNIT BUT NOT CLOSER THAN 660
FEET TO THE BOUNDARIES THEREOF.

ORDER NO. 88-2008

Docket No. 88-2008

Report of the Board

The above entitled cause came on regularly for hearing on the 27th day of March, 2008 in the conference room of the Billings Petroleum Club in the Crowne Plaza Billings in Billings, Montana, pursuant to the order of the Board of Oil and Gas Conservation of the State of Montana, hereinafter referred to as the Board. At this time and place testimony was presented, statements and exhibits were received, and the Board then took the cause under advisement; and, the Board having fully considered the testimony, statements and exhibits and all things and matters presented to it for its consideration by all parties in the Docket, and being well and fully advised in the premises, finds and concludes as follows:

Findings of Fact

1. Due, proper and sufficient notice was published and given of this matter, the hearing hereon, and of the time and place of said hearing, as well as the purpose of said hearing; all parties were afforded opportunity to present evidence, oral and documentary.
2. The evidence indicates that granting the application will serve to protect correlative rights and be in the interest of conservation of oil and gas in the State of Montana.

Order

IT IS THEREFORE ORDERED by the Board of Oil and Gas Conservation of the State of Montana that the application of Headington Oil Company LLC is granted as applied for.

OF THE STATE OF MONTANA

UPON THE APPLICATION OF
HEADINGTON OIL COMPANY LLC TO DRILL AN
ADDITIONAL HORIZONTAL BAKKEN
FORMATION WELL IN THE PERMANENT
SPACING UNIT COMPRISED OF ALL OF
SECTION 16, T24N-R55E, RICHLAND COUNTY, MONTANA,
SAID WELL TO BE LOCATED ANYWHERE WITHIN
THE SPACING UNIT BUT NOT CLOSER THAN 660
FEET TO THE BOUNDARIES THEREOF.

ORDER NO. 102-2008

Docket No. 102-2008

Report of the Board

The above entitled cause came on regularly for hearing on the 27th day of March, 2008 in the conference room of the Billings Petroleum Club in the Crowne Plaza Billings in Billings, Montana, pursuant to the order of the Board of Oil and Gas Conservation of the State of Montana, hereinafter referred to as the Board. At this time and place testimony was presented, statements and exhibits were received, and the Board then took the cause under advisement; and, the Board having fully considered the testimony, statements and exhibits and all things and matters presented to it for its consideration by all parties in the Docket, and being well and fully advised in the premises, finds and concludes as follows:

Findings of Fact

1. Due, proper and sufficient notice was published and given of this matter, the hearing hereon, and of the time and place of said hearing, as well as the purpose of said hearing; all parties were afforded opportunity to present evidence, oral and documentary.
2. The evidence indicates that granting the application will serve to protect correlative rights and be in the interest of conservation of oil and gas in the State of Montana.

Order

IT IS THEREFORE ORDERED by the Board of Oil and Gas Conservation of the State of Montana that the application of Headington Oil Company LLC is granted as applied for.

Docket No. 114-2008

Report of the Board

The above entitled cause came on regularly for hearing on the 27th day of March, 2008 in the conference room of the Billings Petroleum Club in the Crowne Plaza Billings in Billings, Montana, pursuant to the order of the Board of Oil and Gas Conservation of the State of Montana, hereinafter referred to as the Board. At this time and place testimony was presented, statements and exhibits were received, and the Board then took the cause under advisement; and, the Board having fully considered the testimony, statements and exhibits and all things and matters presented to it for its consideration by all parties in the Docket, and being well and fully advised in the premises, finds and concludes as follows:

Findings of Fact

1. Due, proper and sufficient notice was published and given of this matter, the hearing hereon, and of the time and place of said hearing, as well as the purpose of said hearing; all parties were afforded opportunity to present evidence, oral and documentary.
2. At the hearing, applicant's attorney, John Lee, stated that the existing well in Section 15 had been completed as a gas well and as such the temporary spacing unit for the well under A.R.M. 36.22.702 is all of Section 15.
3. The existing well will be used to monitor stimulation of the proposed well, which will be drilled approximately 800 feet from the existing well based upon the design of the monitoring program.
4. The evidence indicates that granting the application will serve to protect correlative rights and be in the interest of conservation of oil and gas in the State of Montana.

Order

IT IS THEREFORE ORDERED by the Board of Oil and Gas Conservation of the State of Montana that Bill Barrett Corporation is authorized to drill an additional well to test zones and formations down to an approximate total depth of 6300 feet in the temporary spacing unit comprised of all of Section 15, T4N-R8E, Park County, Montana, at a location not closer than 990 feet to the spacing unit boundaries as an exception to A.R.M. 36.22.702.

FROM THE BAKKEN FORMATION.

ORDER NO. 115-2008

Docket No. 115-2008

Report of the Board

The above entitled cause came on regularly for hearing on the 27th day of March, 2008 in the conference room of the Billings Petroleum Club in the Crowne Plaza Billings in Billings, Montana, pursuant to the order of the Board of Oil and Gas Conservation of the State of Montana, hereinafter referred to as the Board. At this time and place testimony was presented, statements and exhibits were received, and the Board then took the cause under advisement; and, the Board having fully considered the testimony, statements and exhibits and all things and matters presented to it for its consideration by all parties in the Docket, and being well and fully advised in the premises, finds and concludes as follows:

Findings of Fact

1. Due, proper and sufficient notice was published and given of this matter, the hearing hereon, and of the time and place of said hearing, as well as the purpose of said hearing; all parties were afforded opportunity to present evidence, oral and documentary.
2. The evidence indicates that granting the application will serve to protect correlative rights and be in the interest of conservation of oil and gas in the State of Montana.

Order

IT IS THEREFORE ORDERED by the Board of Oil and Gas Conservation of the State of Montana that all of Sections 2 and 11, T24N-R57E, Richland County, Montana, are designated a field and permanent spacing unit for production of oil and associated natural gas from the Bakken Formation.

PENALTIES IN ACCORDANCE WITH SECTION
82-11-202(2), M.C.A., WITH RESPECT TO THE
PEANUT EAST – HINES #11-14-H WELL.

ORDER NO. 116-2008

Docket No. 116-2008

Report of the Board

The above entitled cause came on regularly for hearing on the 27th day of March, 2008 in the conference room of the Billings Petroleum Club in the Crowne Plaza Billings in Billings, Montana, pursuant to the order of the Board of Oil and Gas Conservation of the State of Montana, hereinafter referred to as the Board. At this time and place testimony was presented, statements and exhibits were received, and the Board then took the cause under advisement; and, the Board having fully considered the testimony, statements and exhibits and all things and matters presented to it for its consideration by all parties in the Docket, and being well and fully advised in the premises, finds and concludes as follows:

Findings of Fact

1. Due, proper and sufficient notice was published and given of this matter, the hearing hereon, and of the time and place of said hearing, as well as the purpose of said hearing; all parties were afforded opportunity to present evidence, oral and documentary.
2. The Allen Benson Estate, which owns 6.6 percent of the minerals in Tract 1 of the permanent spacing unit, is the interest being force pooled.
3. The evidence indicates that granting the application in the manner set forth will serve to protect correlative rights and be in the interest of conservation of oil and gas in the State of Montana.

Order

IT IS THEREFORE ORDERED by the Board of Oil and Gas Conservation of the State of Montana that all interests in the permanent spacing unit comprised of all of Sections 2 and 11, T24N-R57E, Richland County, Montana, are hereby pooled on the basis of surface acreage for production of oil and associated natural gas from the Bakken Formation.

IT IS FURTHER ORDERED that the request for recovery of non-consent penalties from the unleased Allen Benson Estate in accordance with Section 82-11-202(2), M.C.A., is hereby continued to the Board's May 29, 2008 hearing, at which time applicant is required to provide documentation of attempts to contact representatives of the Allen Benson Estate or its heirs.

ORDER NO. 124-2008

Docket No. 132-2008

Report of the Board

The above entitled cause came on regularly for hearing on the 27th day of March, 2008 in the conference room of the Billings Petroleum Club in the Crowne Plaza Billings in Billings, Montana, pursuant to the order of the Board of Oil and Gas Conservation of the State of Montana, hereinafter referred to as the Board. At this time and place testimony was presented, statements and exhibits were received, and the Board then took the cause under advisement; and, the Board having fully considered the testimony, statements and exhibits and all things and matters presented to it for its consideration by all parties in the Docket, and being well and fully advised in the premises, finds and concludes as follows:

Findings of Fact

1. Due, proper and sufficient notice was published and given of this matter, the hearing hereon, and of the time and place of said hearing, as well as the purpose of said hearing; all parties were afforded opportunity to present evidence, oral and documentary.
2. Witnesses for the applicant testified during the hearing that sour gas had been tested in the Sawtooth, Madison and Kootenai Formations and that the Bow Island Formation produced sweet gas.
3. Zones below the base of the Madison Formation had not been proven productive at the time of hearing.

BOARD ORDER NO. 124-2008

4. The evidence indicates that granting the application in the manner hereinafter set forth will serve to protect correlative rights and be in the interest of conservation of oil and gas in the State of Montana.

Order

IT IS THEREFORE ORDERED by the Board of Oil and Gas Conservation of the State of Montana that the W½ of Section 13 and the E½ of Section 14, T35N-R1E, Toole County, Montana, is designated a permanent spacing unit for the production of natural gas from all zones between the surface of the earth and the base of the Madison Formation.

IT IS FURTHER ORDERED that applicant is authorized to complete and produce up to four natural gas wells in each zone within the delineated interval with said wells to be at a location anywhere within the permanent spacing unit but not closer than 990 feet to the exterior boundaries thereof.

IT IS FURTHER ORDERED that applicant's request to drill, complete and produce any of the additional wells the Devian Duperow Formation is hereby denied.

IT IS FURTHER ORDERED that gas produced from only the Sawtooth and Madison Formations may be commingled downhole and that only the surface commingling of gas from the Sawtooth and Madison Formations with gas from other zones is hereby authorized.

IT IS FURTHER ORDERED that applicant must submit a gas analysis report for the zone(s) being produced with the completion report for each well

Done and performed by the Board of Oil and Gas Conservation of the State of Montana at Billings, Montana, this 27th day of March, 2008.

FLYING J OIL & GAS, INC. TO VACATE BOARD
ORDER 37-94, WHICH DELINEATED THE S½ OF
SECTION 23, T36N-R52E, SHERIDAN COUNTY,
MONTANA, AS A TEMPORARY SPACING UNIT
FOR THE WINNIPEGOSIS FORMATION. THIS
REQUEST TO VACATE IS MADE BECAUSE THE
TEST WELL AUTHORIZED BY BOARD ORDER
37-94 HAS BEEN DRILLED AND PLUGGED AND
ABANDONED.

ORDER NO. 126-2008

Docket No. 138-2008

Report of the Board

The above entitled cause came on regularly for hearing on the 27th day of March, 2008 in the conference room of the Billings Petroleum Club in the Crowne Plaza Billings in Billings, Montana, pursuant to the order of the Board of Oil and Gas Conservation of the State of Montana, hereinafter referred to as the Board. At this time and place testimony was presented, statements and exhibits were received, and the Board then took the cause under advisement; and, the Board having fully considered the testimony, statements and exhibits and all things and matters presented to it for its consideration by all parties in the Docket, and being well and fully advised in the premises, finds and concludes as follows:

Findings of Fact

1. Due, proper and sufficient notice was published and given of this matter, the hearing hereon, and of the time and place of said hearing, as well as the purpose of said hearing; all parties were afforded opportunity to present evidence, oral and documentary.
2. The evidence indicates that granting the application will serve to protect correlative rights and be in the interest of conservation of oil and gas in the State of Montana.

Order

IT IS THEREFORE ORDERED by the Board of Oil and Gas Conservation of the State of Montana that the application of Flying J Oil and Gas, Inc. is granted as applied for.

BEFORE THE BOARD OF OIL AND GAS CONSERVATION
OF THE STATE OF MONTANA

UPON THE APPLICATION OF
OASIS PETROLEUM NORTH AMERICA, LLC,
TO CONVERT THE CYRUS 44-30H WELL
(API #25-085-21704) LOCATED IN THE SESE
OF SECTION 30, T30N-R58E, ROOSEVELT
COUNTY, MONTANA, (GUNSIGHT FIELD)
TO A CLASS II INJECTION WELL IN THE
DAKOTA FORMATION.

ORDER NO. 138-2008

Docket No. 151-2008

Report of the Board

The above entitled cause came on regularly for hearing on the 27th day of March, 2008 in the conference room of the Billings Petroleum Club in the Crowne Plaza Billings in Billings, Montana, pursuant to the order of the Board of Oil and Gas Conservation of the State of Montana, hereinafter referred to as the Board. At this time and place testimony was presented, statements and exhibits were received, and the Board then took the cause under advisement; and, the Board having fully considered the testimony, statements and exhibits and all things and matters presented to it for its consideration by all parties in the Docket, and being well and fully advised in the premises, finds and concludes as follows:

Findings of Fact

1. Due, proper and sufficient notice was published and given of this matter, the hearing hereon, and of the time and place of said hearing, as well as the purpose of said hearing; all parties were afforded opportunity to present evidence, oral and documentary.
2. The evidence indicates that granting the application will serve to protect correlative rights and be in the interest of conservation of oil and gas in the State of Montana.

Order

IT IS THEREFORE ORDERED by the Board of Oil and Gas Conservation of the State of Montana that the application of Oasis Petroleum North America, LLC is granted as applied for, subject to stipulations on the Sundry Notice.

ORDER NO. 140-2008

Docket No. 153-2008

Report of the Board

The above entitled cause came on regularly for hearing on the 27th day of March, 2008 in the conference room of the Billings Petroleum Club in the Crowne Plaza Billings in Billings, Montana, pursuant to the order of the Board of Oil and Gas Conservation of the State of Montana, hereinafter referred to as the Board. At this time and place testimony was presented, statements and exhibits were received, and the Board then took the cause under advisement; and, the Board having fully considered the testimony, statements and exhibits and all things and matters presented to it for its consideration by all parties in the Docket, and being well and fully advised in the premises, finds and concludes as follows:

Findings of Fact

1. Due, proper and sufficient notice was published and given of this matter, the hearing hereon, and of the time and place of said hearing, as well as the purpose of said hearing; all parties were afforded opportunity to present evidence, oral and documentary.
2. This application was originally protested by J. Burns Brown Operating Company, but that protest was withdrawn on the day of the hearing.
3. At the hearing, applicant's attorney John Lee modified the application to request only the SE¼ of Section 20, T35N-R17E, Hill County, Montana, be included in the proposed permanent spacing unit.
4. The evidence indicates that granting the application will serve to protect correlative rights and be in the interest of conservation of oil and gas in the State of Montana.

Order

IT IS THEREFORE ORDERED by the Board of Oil and Gas Conservation of the State of Montana that the SE¼ of Section 20, T35N-R17E, Hill County, Montana, is designated a permanent spacing unit for production of gas from the Eagle Formation through the wellbore of the East End #20-16-35-17B well.

ORDER NO. 143-2008

Docket No. 156-2008

Report of the Board

The above entitled cause came on regularly for hearing on the 27th day of March, 2008 in the conference room of the Billings Petroleum Club in the Crowne Plaza Billings in Billings, Montana, pursuant to the order of the Board of Oil and Gas Conservation of the State of Montana, hereinafter referred to as the Board. At this time and place testimony was presented, statements and exhibits were received, and the Board then took the cause under advisement; and, the Board having fully considered the testimony, statements and exhibits and all things and matters presented to it for its consideration by all parties in the Docket, and being well and fully advised in the premises, finds and concludes as follows:

Findings of Fact

1. Due, proper and sufficient notice was published and given of this matter, the hearing hereon, and of the time and place of said hearing, as well as the purpose of said hearing; all parties were afforded opportunity to present evidence, oral and documentary.
2. Donald B. Kennedy, agent for Northwest Farm Credit Services, submitted a letter of protest regarding applicant's request for less than a 640-acre spacing unit. The protest was resolved prior to hearing.
3. The evidence indicates that granting the application in the manner hereinafter set forth will serve to protect correlative rights and be in the interest of conservation of oil and gas in the State of Montana.

Order

IT IS THEREFORE ORDERED by the Board of Oil and Gas Conservation of the State of Montana that the NE¼ of Section 5, T34N-R16E, Hill County, Montana, is designated a permanent spacing unit for production of gas from the Niobrara, Eagle and Judith River Formations (commingled) through the wellbore of the Hilldale #5-8-34-16 well.

SECTION 32, T35N-R57E, SHERIDAN COUNTY,
MONTANA, FOR PRODUCTION OF OIL AND
ASSOCIATED NATURAL GAS FROM THE RED
RIVER FORMATION.

ORDER NO. 149-2008

Docket No. 424-2007

Report of the Board

The above entitled cause came on regularly for hearing on the 27th day of March, 2008 in the conference room of the Billings Petroleum Club in the Crowne Plaza Billings in Billings, Montana, pursuant to the order of the Board of Oil and Gas Conservation of the State of Montana, hereinafter referred to as the Board. At this time and place testimony was presented, statements and exhibits were received, and the Board then took the cause under advisement; and, the Board having fully considered the testimony, statements and exhibits and all things and matters presented to it for its consideration by all parties in the Docket, and being well and fully advised in the premises, finds and concludes as follows:

Findings of Fact

1. Due, proper and sufficient notice was published and given of this matter, the hearing hereon, and of the time and place of said hearing, as well as the purpose of said hearing; all parties were afforded opportunity to present evidence, oral and documentary.

2. This application was protested by Chester and Rita Lindblom who are interest owners in adjoining Section 30. The Lindbloms appeared in person to protest the proposed permanent spacing because the Varney 1-29 well is only 192 feet from the section line. They were concerned the well will drain resources from the producing Parrot #1-30 well which is located on their minerals. They were also concerned that applicant may recomplete the poor-producing Varney well to a different formation in the future which could also have an impact on their interests in the Parrot well.

3. Applicant's attorney, John Lee, testified that the proper spacing for the Varney 1-29 well should be only 160 acres, not the 320 acres requested. He also testified that the spacing requested only affects the Red River zone and if applicant wanted to recomplete uphole they would have to return for another spacing hearing.

4. The evidence indicates that granting the application will serve to protect correlative rights and be in the interest of conservation of oil and gas in the State of Montana.

Order

IT IS THEREFORE ORDERED by the Board of Oil and Gas Conservation of the State of Montana that the SW¼ of Section 29, T35N-R57E, Sheridan County, Montana, is designated a permanent spacing unit for production of oil and associated natural gas from the Red River "C" Zone.

BOARD ORDER NO. 149-2008

Done and performed by the Board of Oil and Gas Conservation of the State of Montana at Billings, Montana, this 27th day of March, 2008.

Joan Stahl, Board Member

ATTEST:

Terri H. Perrigo, Executive Secretary

BEFORE THE BOARD OF OIL AND GAS CONSERVATION
OF THE STATE OF MONTANA

UPON THE APPLICATION OF
CHESAPEAKE OPERATING, INC. TO POOL ALL
INTERESTS IN THE PERMANENT SPACING
UNIT COMPRISED OF THE SW¹/₄ OF SECTION 29
AND THE NW¹/₄ OF SECTION 32, T35N-R57E,
SHERIDAN COUNTY, MONTANA, FOR
PRODUCTION OF OIL AND ASSOCIATED
NATURAL GAS FROM THE RED RIVER
FORMATION, AND TO AUTHORIZE RECOVERY
OF NON-CONSENT PENALTIES IN
ACCORDANCE WITH SECTION 82-11-202 (2), M.C.A.

ORDER NO. 150-2008

Docket No. 425-2007

Report of the Board

The above entitled cause came on regularly for hearing on the 27th day of March, 2008 in the conference room of the Billings Petroleum Club in the Crowne Plaza Billings in Billings, Montana, pursuant to the order of the Board of Oil and Gas Conservation of the State of Montana, hereinafter referred to as the Board. At this time and place testimony was presented, statements and exhibits were received, and the Board then took the cause under advisement; and, the Board having fully considered the testimony, statements and exhibits and all things and matters presented to it for its consideration by all parties in the Docket, and being well and fully advised in the premises, finds and concludes as follows:

Findings of Fact

1. Due, proper and sufficient notice was published and given of this matter, the hearing hereon, and of the time and place of said hearing, as well as the purpose of said hearing; all parties were afforded opportunity to present evidence, oral and documentary.
2. At the hearing attorney John Lee modified the application after the action taken in Docket 424-2007 regarding downspacing. The modified force pooling request is for the SW¹/₄ of Section 29 only. The interest being force pooled with risk penalties is the Frank Jeppe Bypass Trust.
3. The evidence indicates that granting the application will serve to protect correlative rights and be in the interest of conservation of oil and gas in the State of Montana.

Order

IT IS THEREFORE ORDERED by the Board of Oil and Gas Conservation of the State of Montana that all interests in the permanent spacing unit comprised of the SW¹/₄ of Section 29, T35N-R57E, Sheridan County, Montana, are hereby pooled on the basis of surface acreage for production of oil and associated natural gas from the Red River Formation.

IT IS FURTHER ORDERED that recovery of non-consent penalties in accordance with Section 82-11-202(2), M.C.A. is hereby authorized.

BOARD ORDER NO. 150-2008

Done and performed by the Board of Oil and Gas Conservation of the State of Montana at Billings, Montana, this 27th day of March, 2008.
