All production reports, notices, forms, logs, samples, or other information required by Board law, rule, or order must be on file with the Board. The transferee must be in compliance with the Board's bonding requirements, as provided in Rules 36.22.1308 and 1408 ARM, before the transfer can be approved.  Re: **Montana Properties Sale**

Comments: The Bayswater operated well list from the Montana Board of Oil & Gas Conservation has been cross-referenced against Bayswater’s internal well lists. After cross-referencing the lists, it has been determined that the lists agree with no extra wells found neither internally nor externally. However, a few minor discrepancies have been found with naming conventions. Table 1 below outlines these differences.

Table 1: Differences in Well Names

Montana State Well Name	Bayswater Internally Reported Well Name	Reason for Difference
Copulos (1-0309-1) 1A	Copulous #1	Typo
Quinnell 1	NP H624	Naming convention after unitization
Big Wall 4-9	Little Wall 4-9	Wrong lease name
Big Wall 9-9	Little Wall 9-9	Wrong lease name
Moffett D818	Moffet #2	Naming convention after unitization
CSTSU A411	CSTSU A410X	New name after re-drill
CSTSU D314	CSTSU #2	Naming convention after unitization
CSTSU B115	CSTSU 5-A	Naming convention after unitization
Big Wall 2-9	Little Wall 2-9	Wrong lease name

This table will be forwarded to Foothills so that they are aware of the discrepancies, it is not necessary to make any changes with the state. Attached is also the completed Change of Operator form ready for signature (Don Barbula). The attachment includes the form 20 attachment indicating all of the wells to be sold. Land department please advise if you see any problems or think differently.
