APPLICATION

DOCKET NO. 41 - 2021

Lonewolf Operating, LLC ("Applicant"), P.O. Box 81026, Billings, Montana 59108-1026, presents the following Application:

1. Applicant is the owner and operator of oil and gas leasehold interests in, to and under the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 32, Township 35 North, Range 21 East, Blaine County.
2. Applicant desires to drill its Firemoon #11-32 well at an approximate location 2,285' FSL and 2,598' FWL of Section 32, said proposed wellsite location lying within and upon the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 32.
3. If authorized the proposed well will be drilled to an approximate depth of four thousand three hundred thirty-six feet (4,336') to the Sawtooth Formation to test for the presence of oil.
4. The Sawtooth Formation underlying the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 32 is presently subject to temporary spacing established by ARM 36.22.702(1, 2 & 7) which provides, in part, that "... no oil well with a projected depth of 6,000 feet or less shall be located closer than 330 feet to any legal subdivision line, and only one well shall be permitted to produce from the same reservoir within the same legal subdivision."
5. Based upon an approximate location 2,285' FSL and 2,598' FWL from the exterior boundaries of Section 32 the proposed location is not in conformity with ARM 36.22.702(1, 2 & 7).
6. The proposed wellsite location is based upon geophysical data and information and the interpretation thereof and said location in Applicant's opinion is the optimum location for a successful oil well.
7. Because of the location of Applicant's proposed exploratory well Applicant requests the E $\frac{1}{2}$ NE $\frac{1}{4}$ SW $\frac{1}{4}$ and W $\frac{1}{2}$ NW $\frac{1}{4}$ SE $\frac{1}{4}$ of Section 32, comprising forty acres, be designated by this Board as a temporary spacing unit for said well and oil produced from the Sawtooth Formation.
8. Applicant requests authorization and approval from this Board to drill and produce the above well as an exception to ARM 36.22.702(1, 2 & 7).

9. Applicant believes the requested temporary spacing unit is necessary in order to adequately and efficiently increase the ultimate recovery of Sawtooth Formation oil from the foregoing lands.
10. Applicant believes the granting of the request herein will serve to protect the correlative rights of all interested parties and will be in the best interest of prevention of waste and conservation of oil.
11. Should the proposed well be drilled and completed as a well capable of commercial production of oil Applicant will apply for an Order designating and delineating a permanent spacing unit for production of Sawtooth Formation oil therefrom.

WHEREFORE, Applicant requests the following:

1. This matter be set for hearing by this Board and notice thereof be given as required by law;
2. After hearing this matter this Board enter its Order granting and approving the request of Applicant herein; and
3. For such other or additional relief as this Board may deem appropriate.

Dated May 5, 2021.
