5. Applicant believes this request prevents waste of oil and gas, avoids drilling unnecessary wells, and protects the correlative rights of all interested parties.
6. Applicant will, within ninety (90) days of successful completion of the proposed horizontal well, file an application for the Board's consideration of permanent spacing and other matters relating to production from said well.

Applicant Requests:

1. Applicant respectfully requests placement of this matter on the Default Docket, with automatic continuance upon any protest, and notice given as required by law;
2. After approval of the matter on the Default Docket, the Board enter its order (i) creating a TSU comprised of Sections 29 and 32, Township 34 North, Range 58 East, and Sections 5 and 8, Township 33 North, Range 58 East, Sheridan County, Montana and authorizing the drilling of a horizontal Bakken/Three Forks formation well at any location within such TSU but not closer than 200' (heel/toe setback)/500' (lateral setback) to the exterior boundaries thereof, providing that operations for the drilling of such well must be commenced within two (2) years from the date of such order; (ii) vacating MBOGC Order No. 380-2011 insofar as applicable to the Application Lands; and
3. For such other or additional relief as the Board may deem appropriate.

Re: Pending Notice of Intent to Change Operator and Request to Appear

Dear BN Energy, LLC:

This letter is regarding the Notice of Intent to Change Operator request from R & A Oil, Inc. to BN Energy, LLC that was recently submitted to the Board of Oil and Gas Conservation (Board).

The Board and its staff have reviewed the request. BN Energy, LLC is a new operator that is acquiring 10 or more wells to be covered by a single, multiple well bond and the approval of the request will result in 5 or more inactive wells on BN Energy, LLC's multiple well bond. Due to the Board's transfer of plugging and reclamation policy, the approval of the change of operator request is being referred to the Board. The policy is enclosed. BN Energy, LLC is requested to appear at the **December 10, 2026**, public hearing. At that time, the Board will determine if BN Energy, LLC's proposed multiple well plugging and reclamation bond is adequate prior to the administrative review and approval of the change of operator request. BN Energy, LLC and its attorney should review the enclosed policy for the suggested information to provide to the Board.

Please take note that corporations, partnerships, limited-liability companies (LLCs), or any other legal entity that is not a natural person cannot appear before the Board except through an attorney licensed to practice law in the State of Montana. Failure of a designated and duly licensed legal representative to appear at the time and place identified in this hearing notice may result in imposition of sanctions for failure to appear before the Board.

If you have any questions, please contact me at (406) 656-0040 or at bjones@mt.gov.

Sincerely,

Benjamin Jones
Administrator / Petroleum Engineer
